

Foundation

Functional Health & Longevity · Provider Reference

KORB Health Group · korb-dosing-data.js v2.5 · generated 2026-08-12

Everything needed to prescribe the Foundation program, complete on its own. The provider tool covers the same ground; this document exists so it is not required. Values are copied literally into the Tebra Compound section.

At a glance

Program	Foundation Program
Structure	Single agent, provider selects one. No stagger, no optional add-on.
Cycle length	16 weeks
Agents in this document	Sermorelin 200 mcg · CJC-1295 / Ipamorelin 100/100 mcg · BPC-157 500 mcg
Pharmacies	Premier and Greenwich — routed by patient state

The 16-week cycle

Agent	Role	Active weeks	Timing
Sermorelin 200 mcg	Standalone course	Weeks 1–12	Bedtime · Empty stomach (2+ hrs after eating)
CJC-1295 / Ipamorelin 100 mcg CJC-1295 / 100 mcg Ipamorelin	Standalone course	Weeks 1–12	Bedtime · Empty stomach (2+ hrs after eating)
BPC-157 500 mcg	Standalone course	Weeks 1–8	Any consistent time · No food restriction

• Foundation is a single agent. The provider selects one of the three; there is no stagger and GHK-Cu is never a Foundation option.

Directions given to the patient

Agent	Pharmacy	Direction
Sermorelin 200 mcg	Premier	Inject 20 units subcutaneously at bedtime, 6 days on, 1 day off, on an empty stomach.
Sermorelin 200 mcg	Greenwich	Inject 7 units subcutaneously at bedtime, 6 days on, 1 day off, on an empty stomach.
CJC-1295 / Ipamorelin 100 mcg CJC-1295 / 100 mcg Ipamorelin	Premier	Inject 5 units subcutaneously at bedtime, 6 days on, 1 day off, on an empty stomach.
CJC-1295 / Ipamorelin 100 mcg CJC-1295 / 100 mcg Ipamorelin	Greenwich	Inject 5 units subcutaneously at bedtime, 6 days on, 1 day off, on an empty stomach.
BPC-157 500 mcg	Premier	Inject 13 units subcutaneously once daily.
BPC-157 500 mcg	Greenwich	Inject 17 units subcutaneously once daily.

The rest day is not a fixed weekday

The protocol is 6 days on, 1 day off. The specific weekday is a recommendation for ease of patient recall, not a clinical requirement. The patient's tracker derives their rest day from their own start date, so a patient starting on a Wednesday rests Tuesday. Do not tell a patient their rest day is Sunday.

Syringes

Pharmacy	Standard syringe	When a 100-unit syringe is required instead
Premier Pharmacy	100-unit (1 mL)	Not applicable — Premier ships 100-unit syringes across the board.
Greenwich Pharmacy	50-unit (0.5 mL)	Any dose at or above 50 units. Currently Tesamorelin 2 mg, dosed at 67 units.

Which pharmacy, and where you can prescribe

Defaults to Premier	AZ, CO, CT, DC, DE, FL, GA, IL, KS, KY, LA, MD, ME, MI, MO, MS, MT, NC, ND, NE, NJ, NM, NV, NY, OH, OK, OR, PA, RI, SD, TN, TX, UT, VA, VT, WI, WV, WY
Everywhere else	Greenwich Pharmacy, which ships to all 50 states plus DC

Functional Health & Longevity is not offered in these states

AL, AK, DC, GA, HI, MA, MN, NJ, NY, RI, SC, WV

NY, NJ, RI are held for a distinct reason — lab workflow and state-specific legislation — not provider coverage.

• Unit counts differ between the two pharmacies for the same milligram dose. Always read the units off the row for the patient's pharmacy, never from the other column.

Tebra Compounded Drug Favorite — exact fields

Copy these values literally. Do not paraphrase, and do not adjust quantity, refill or days supply. Greenwich requires “as directed by provider” in Patient Instructions because KORB does not follow their protocols — the full direction still goes to the patient through their treatment schedule.

Sermorelin — 200 mcg

Premier Pharmacy	Value
Drug Formulation	Sermorelin 1 mg/mL inj
Name	PREMIER – Sermorelin 200 mcg SQ Injection
Allow Substitution	Yes — select Allow Substitution
Quantity	18
Unit	mL
Refill	0
Days Supply	84
Patient Instructions	INJECT SERMORELIN 20 UNITS SUBCUTANEOUSLY AT BEDTIME, 6 DAYS ON 1 DAY OFF, ON AN EMPTY STOMACH
Reason for Compounding	Customized peptide dosing
Pharmacy Instructions	Bill to KORB Health Group and ship to the patient. Customized peptide dosing. Dispense 80 insulin syringes.
Greenwich Pharmacy	Value
Drug Formulation	KBH Sermorelin 3mg/mL

Greenwich Pharmacy	Value
Name	GREENWICH – Sermorelin 0.6 mg SQ Injection
Allow Substitution	Yes — select Allow Substitution
Quantity	15
Unit	ml
Refill	0
Days Supply	84
Patient Instructions	Inject as directed by provider. Follow your KORB treatment schedule.
Reason for Compounding	Customized peptide dosing
Pharmacy Instructions	Bill to KORB Health Group and ship to the patient. Customized peptide dosing

CJC-1295 / Ipamorelin — 100 mcg CJC-1295 / 100 mcg Ipamorelin

Premier Pharmacy	Value
Drug Formulation	CJC-1295 / Ipamorelin 2 mg/2 mg per 1mL inj
Name	PREMIER – CJC/Ipam 100 mcg/100 mcg SQ Inj
Allow Substitution	Yes — select Allow Substitution
Quantity	9
Unit	ml
Refill	0
Days Supply	84
Patient Instructions	INJECT 5 UNITS SUBCUTANEOUSLY AT BEDTIME, 6 DAYS ON 1 DAY OFF, ON AN EMPTY STOMACH
Reason for Compounding	Customized peptide dosing
Pharmacy Instructions	Bill to KORB Health Group and ship to the patient. Customized peptide dosing. Dispense 80 insulin syringes.

Greenwich Pharmacy	Value
Drug Formulation	KBH CJC/Ipamorelin 2mg/2mg/mL
Name	GREENWICH – CJC/Ipam 100 mcg/100 mcg SQ Inj
Allow Substitution	Yes — select Allow Substitution
Quantity	15
Unit	ml
Refill	0
Days Supply	84
Patient Instructions	Inject as directed by provider. Follow your KORB treatment schedule.
Reason for Compounding	Customized peptide dosing
Pharmacy Instructions	Bill to KORB Health Group and ship to the patient. Customized peptide dosing

BPC-157 — 500 mcg

Premier Pharmacy	Value
Drug Formulation	BPC-157, 4mg/ml inj
Name	PREMIER - BPC-157 500mcg SQ Inj Daily
Allow Substitution	Yes — select Allow Substitution
Quantity	12
Unit	ml
Refill	0
Days Supply	56
Patient Instructions	INJECT 13 UNITS SUBCUTANEOUSLY ONCE DAILY
Reason for Compounding	Customized peptide dosing
Pharmacy Instructions	Bill to KORB Health Group and ship to the patient. Customized peptide dosing. Dispense 50 insulin syringes.

Greenwich Pharmacy	Value
Drug Formulation	KBH BPC-157 3mg/mL
Name	GREENWICH - BPC-157 0.6 MG SQ Inj
Allow Substitution	Yes — select Allow Substitution
Quantity	10
Unit	ml
Refill	0
Days Supply	56
Patient Instructions	Inject as directed by provider. Follow your KORB treatment schedule.
Reason for Compounding	Customized peptide dosing
Pharmacy Instructions	Bill to KORB Health Group and ship to the patient. Customized peptide dosing

Counseling and monitoring

Sermorelin — counseling points

- Not GH replacement — stimulates body's own GH signaling pathway
- Lifestyle (nutrition, resistance training, sleep) remains critical — not a substitute
- Response varies between patients; benefit not guaranteed
- Do not combine with other GH-axis therapies without provider approval
- 6 days ON / 1 day OFF pattern must be followed — your rest day is shown in your KORB treatment schedule
- Take at bedtime on an empty stomach — timing is clinically relevant
- Discard vial 28 days after initial puncture — do not use beyond this date regardless of remaining volume

Sermorelin — monitoring

■ Sleep quality and recovery quality	■ Joint discomfort
■ Energy and wellness trend	■ Paresthesias / tingling
■ Body composition / waist circumference trend	■ Glucose-related changes (if at-risk)
■ Exercise tolerance and lean mass preservation	■ IGF-1 (per lab protocol)
■ Edema / fluid retention	■ Injection site reactions
■ Headache	■ Adherence to 6-on/1-off schedule

CJC-1295 / Ipamorelin — counseling points

• Dual-peptide GH secretagogue combo — not GH replacement
• Lifestyle (nutrition, resistance training, sleep) remains critical — not a substitute
• Response varies between patients; benefit not guaranteed
• Do not combine with other GH-axis therapies without provider approval
• 6 days ON / 1 day OFF pattern must be followed — your rest day is shown in your KORB treatment schedule
• Take at bedtime on an empty stomach — timing is clinically relevant
• Discard vial 28 days after initial puncture — do not use beyond this date regardless of remaining volume

Lab protocol

Baseline before medication start, then every 16 weeks. Order in Tebra via the Quest integration with a future collection date set 12 weeks out. No STAT designation is used.

Test	Code	Test	Code
CBC w/ Differential	6399	TSH	899
CMP	10231	Free T4	866
Lipid Panel	7600	T3, Free	34429
HbA1c	496	Copper, RBC	3481
Fasting Glucose	483	Zinc, RBC	6354
Fasting Insulin	561	Ceruloplasmin	326
IGF-1 (LC/MS)	16293		

Add for men aged 45 and over

PSA, Total (Men 45+) — code 5363. Men age 45 and older only

- Copper RBC, Zinc RBC and Ceruloplasmin are part of the standard panel for every patient, regardless of which agent is prescribed.

Pricing and charge codes

Provider and internal only. Never quote a price to a patient from this document without confirming with Operations.

Item	Website	Partner	Charge code
Baseline Labs (one-time, before program selection)	\$99.00	\$99.00	BASEPeptideLab
Foundation Program — BPC-157	\$249.00 / mo	\$199.00 / mo	FndnPeptide001 FndnPeptideP01
Foundation Program — Sermorelin	\$249.00 / mo	\$199.00 / mo	FndnPeptide002 FndnPeptideP02
Foundation Program — CJC-1295 / Ipamorelin	\$249.00 / mo	\$199.00 / mo	FndnPeptide003 FndnPeptideP03

- Monthly figures are the recurring payment. Full 16-week cycle: **\$996.00** website, **\$796.00** partner. Charge codes are shown website first, partner second.

Questions and escalation

- Pharmacy or shipping issues — Operations
- Charge codes and billing — Operations
- Clinical protocol questions — Clinical Director
- Corrections to this document — Clinical Operations

Do not improvise

- Do not alter quantity, refill or days supply
- Do not paraphrase patient instructions
- Do not prescribe into a state the tool marks unavailable
- Do not quote pricing to a patient without confirming with Operations
